

Empowering Your Team for Tomorrow's Challenges

AGILE CORPORATE TRAINING PROGRAMS

NextAgile enables organizations to scale Agile practices through hands-on, practitioner-led learning that drives measurable business impact.

Why NextAgile?

- Practitioner-led, outcome-focused training
- Custom programs for teams and enterprises
- Immersive simulations and real-world use cases
- Scalable, hybrid delivery options

Our Key Programs

We offer a curated selection of agile training programs, expertly crafted to equip your teams with essential skills and frameworks. Our experienced instructors combine theoretical knowledge with practical application, ensuring immediate impact.

Agile Induction

Introduce teams to Agile values, principles, and collaboration practices.

Agile & Scrum Masterclass

Strengthen delivery capability and alignment through advanced Scrum practices.

Product Owner Masterclass

Translate business vision into actionable, value-driven product goals.

Agile Estimation & Planning

Improve predictability and flow through structured estimation and planning.

Agile & Kanban Methods

Optimize workflows and efficiency using Kanban for continuous delivery.

SAFe PI Planning Simulation

Master enterprise-scale Agile with practical PI planning simulations.

AI for JIRA Learning

Automate JIRA workflows and analytics using Atlassian Intelligence.

AI for Agility

Leverage AI to enhance Agile decision-making and forecasting.

Agile Leadership

Develop leaders who drive agility, accountability, and innovation.
